**Agenda Item No.2: ACTION TAKEN REPORT ON THE DECISIONS OF THE 24<sup>th</sup> SHPSC**

<b>Agenda Item</b>	<b>Decision Taken</b>	<b>Action Taken</b>
<b>2.1:INDEPENDENT REVIEW AND MONITORING AGENCY (IRMA) – REVIEW OF QUARTERLY PROGRESS REPORTS 1,2,3 AND OBSERVATIONS/COMMENTS IN THE REPORT SUBMITTED</b>		
Ministry of Housing and Urban Affairs Department selected M/s WAPCOS Ltd, Gurugram as Independent Review and Monitoring Agency (IRMA) for AMRUT Mission, Kerala. The agreement with IRMA was executed on 1st March 2019. The Scope of Services carried out by IRMA is to monitor all Projects in all the stages of project execution and timely reporting to State Government and Central Ministry about their observations regarding the implementation of projects in different stages, such as pre- construction stage, construction stage, commissioning, trial run and testing stage and post construction stage. IRMA has submitted one initial fact-finding report and three quarterly progress reports till date.  IRMA observed in their initial fact-finding report submitted on 25th May 2019 that, <u>“there appears to be a lack of expertise in Septage &amp; Sewerage sector and might require strong technical support. The Septage &amp; Sewerage projects are the most challenging and time consuming considering the various obstacles in the field and therefore need close attention and monitoring”</u> . The Independent Review and Monitoring Agency (IRMA) also suggested in their 1st quarterly report submitted on 26th September 2019, <u>“that State Mission Management Unit may consider to constitute a team of experts to help the implementing agencies for the execution of projects under Septage and Sewerage sector if experts are not available with them”</u> . There are also comments regarding the lack of expertise of ULB engineers in Sewerage & Septage Management sector in second and third quarterly reports.	<ol style="list-style-type: none"><li>1. The Committee took note of the comments/ observations in the quarterly progress report submitted by IRMA</li><li>2. The Committee agreed with the suggestions on appointment of a panel of experts and their remuneration, as given above by SMMU, for assisting the ULB Engineers as and when it is required. (Action: Principal Secretary, LSGD (Urban) and Mission Director, AMRUT)</li></ol> <p><i>GO awaited.</i></p>	

**AMRUT - Agenda for 25<sup>th</sup> SHPSC to be held on 15.09.2020**

<b><i>Agenda Item</i></b>	<b><i>Decision Taken</i></b>	<b><i>Action Taken</i></b>
<p>Septage and Sewerage Management is one of the priority sectors under AMRUT Mission. Presently, there are 19 projects amounting to Rs.426.35Cr in Sewerage (11 projects amounting Rs.402.3Cr) and Septage (8 projects amounting Rs.23.7Cr) sector which are directly to be executed by ULBs on which tendering and awarding are in progress. The ULB engineering wing have no previous experience and are not familiar with the on-site implementation method of Septage and Sewerage projects which are piloted in their mission cities. They have raised their concerns to Deputy Mission Director during his city visits and in the Project Review Meetings of AMRUT conducted by Mission Director, about the lack of specific experience and the project management methods to be adopted in the fields of supervision and execution of Sewerage&amp; Septage Projects.</p> <p>Hence it is suggested to appoint a panel of Experts including experts of Environmental, Mechanical and Electrical Engineers to provide technical expertise and assistance to ULB engineers. They can be sourced through Institution of Electrical Engineers (IEE), Kerala Water Authority Engineers Association, Retired Officials from CET or from other reputed institutions for effective project management support in the case of Sewerage and Septage projects undertaken by the ULB Engineering wing. We can also try to get experts who are retired from Sewerage boards of Karnataka, Tamilnadu and Andhra Pradesh. The selected panel of experts have to deliver handholding support to ULB engineers for the effective implementation of Septage and Sewerage projects right from start up to completion and operation of all projects under the sector.</p> <p><b>It is suggested that remuneration for the selected experts in the panel can be on per diem basis of Rs. 3000-8000 (based on experience) per visit plus travel expense, expenses of boarding and lodging. The visits are to be scheduled based on the need of the ULB in various stages of execution. Their expertise can also be made use for any revision of proposals/technology. They can also be used for checking of DPR, assisting the technical committee in issue of TS, tendering works, scrutiny of bids and supervision for Septage/Sewerage Treatment Plants.</b></p>

**Suggestion of MD, AMRUT:** As per the GO. (P) No. 16/2017/Fin dated 06/02/2019 (Annexure-03), the Maximum admissible tender excess shall be limited either to the quoted rate of the lowest bidder or local market rates or DSR plus 10% tolerance limit whichever is less. In case, the quoted rate of the lowest bidder is above DSR plus 10% tolerance limit, the tender inviting authority themselves shall re-tender the work without referring the case to higher authorities. If the quoted rate is still above allowable limit even after retendering, the competent authority shall rework the estimate, after giving due consideration to the site-specific conditions and fresh tenders shall be invited based on revised estimates.

**Decision to be Taken:** *The SHPSC may take a suitable decision on the 40% tender excess (Excess Amount – Rs.0.204Cr.).*

---	--	--

**Suggestion of MD, AMRUT:** As per the GO. (P) No. 16/2017/Fin dated 06/02/2019 (Annexure-03), the Maximum admissible tender excess shall be limited either to the quoted rate of the lowest bidder or local market rates or DSR plus 10% tolerance limit whichever is less. In case, the quoted rate of the lowest bidder is above DSR plus 10% tolerance limit, the tender inviting authority themselves shall re-tender the work without referring the case to higher authorities. If the quoted rate is still above allowable limit even after retendering, the competent authority shall rework the estimate, after giving due consideration to the site-specific conditions and fresh tenders shall be invited based on revised estimates.

**Decision to be Taken:** *The SHPSC may take a suitable decision on the 32% tender excess (Excess Amount – Rs.0.089Cr.).*
